

DURABLE VIEWING SOLUTIONS

For over 30 years

TSP has been a leading supplier of all forms of protective plastic for viewing applications. With extensive knowledge in coating, materials, and fabrication methods, TSP has distinguished itself as an experienced and reliable partner to many of the world's most demanding OEMs and industries.

We offer the industry's highest quality solutions to plastic protection.

DURAVUE® coatings

DURAVUE® coatings provide protection from scratching and abrasion, chemical and weather intrusion, or with anti-glare or anti-reflective surfaces... all with the long-lasting performance you would expect from the DURAVUE® name.

Market/Product Applications:

-  Electronic Display Windows
-  Bar Code Scanners/Data Collection
-  Instrument & Gauge Lenses
-  Safety & Recreational Eyewear
-  Military and Security Glazing
-  Transportation Products
-  Gaming/Arcade Windows
-  Architectural Glazing

Ready-To-Install Windows

TSP has in-house capabilities for:

- Acrylic Fabrication
- Polycarbonate Fabrication
- Lasercutting & CNC Machining
- Printing/Decoration
- Adhesive gaskets & Assembly

The TSP Difference

With our proprietary DURAVUE® coatings, access to the best plastic material, and full-service fabrication/finishing capabilities, TSP delivers precision parts, ready-to-install.

Our knowledgeable and responsive staff will work with you to get the parts you need to meet your demanding delivery schedule.

We pride ourselves on innovation, superior customer service, and providing single-source solutions for all of your protective viewing needs.
