Re: California Proposition 65
Safe Drinking Water & Toxic Enforcement Act of 1986

TSP, Inc. is committed to providing our Customers with high quality products that meet compliance requirements throughout our Industry. It is our current determination, based in part on information available to us from our raw material suppliers, that our products do not intentionally contain a listed chemical above Safe Harbor Levels as called out in CA Prop 65. Furthermore, our products are semi-finished goods, not primarily sold directly to the consumer, thus CA Prop 65 label warnings do not apply.

We will continue to monitor and provide notification if we become aware of any changes.
